Summary

Innovative Full-Stack Developer with expertise in React.js, Node Js, Express Js PHP, and MySQL, creating dynamic, responsive web solutions. Proven track record of delivering user-focused designs and scalable applications. Skilled in collaborating with teams, optimizing performance, and driving technical excellence.

Technical Skills

Programming Languages: Python, JavaScript

Web Technologies: React.js, Node.js, Express.js, PHP, BootStrap, REST API, Tailwind CSS, HTML, CSS

Database Management: SQL, MongoDB, Mongoose

Tools: Git, Postman

Work Experience

Full-Stack Freelancer - Building Seamless Online Experiences

Atrisol Technologies Pvt Ltd

Bengaluru, India

- Developed and maintained dynamic, responsive web applications using React.js, PHP, and MySQL, ensuring seamless user experiences and optimized performance.
- Designed and implemented back-end services and APIs using PHP, facilitating secure data management and real-time functionality.
- Integrated third-party APIs to enhance application features, such as payment gateways, geolocation services, and user authentication systems.
- Git for version control and collaborative development to manage multiple projects simultaneously.

Projects

Insta Buy - An Ecommerce Application | React.js, HTML5, CSS3

- Developed a dynamic and responsive e-commerce user interface, enabling seamless product browsing and checkout experiences.
- Integrated reusable components to enhance development efficiency and consistency.
- Ensured cross-browser compatibility and optimized page load speed for better user engagement.

Ticket Box | React.js, HTML5, CSS3, Bootstrap, TMDB API

- Designed an intuitive movie ticket booking platform, offering a smooth user experience for seat selection and payments using TMDB API.
- Utilized Bootstrap for a mobile-first design, ensuring responsiveness across all devices.
- Implemented dynamic features like real-time ticket availability using React state management..

Med Starts | React.js, HTML5, CSS3, Geo-APIfy

- Built a hospital locator application that identifies the nearest hospitals based on user location using Geo-APIfy API
- Enhanced user accessibility with an interactive map and location search functionality and Focused on performance optimization to ensure faster location-based results.

Student Engineering Materials | PHP, HTML, CSS, JS

- Developed an intuitive and responsive platform consolidating semester materials, past question papers, and official university textbooks, tailored specifically for engineering students.
- Delivered an innovative platform that aggregates essential academic resources, ensuring students can quickly and efficiently find all their semester materials and references in one place.
- Created a seamless interface housing textbooks, question papers, and materials organized by semester, transforming the way students access their educational content.

Education

Bachelor Of Technology – Computer Science and Engineering <i>Sri Venkateswara College of Engineering – 7.80 CGPA</i>	2019 – 2023 <i>Kadapa, Andhra Pradesh</i>
Intermediate – MPC <i>Sri Gayatri Junior College – 8.36 CGPA</i>	2017 – 2019 <i>Kadapa, Andhra Pradesh</i>
Secondary School <i>S.V.R High School – 9.20 GPA</i>	2017 <i>Kadapa, Andhra Pradesh</i>

Achievements and Certifications

Silver Badge in Python Programming Language <i>HackerRank</i>	2023
React Proficient Certification <i>Cynohub</i>	2024
JavaScript Certification <i>HackerRank</i>	2023
Python Programming Certification <i>APSCHE</i>	2019
MySQL Certification <i>iTech Analytic Solutions</i>	2024
